SSJ,

The final 15MT needs to ship by July 2nd.

We cannot afford to have the toll manufacturer not have the technical to continue the campaign.

If that happens, they will clean out the system and we will not be able to produce the entire quantity needed for this season.

Please do whatever you can to one the second and third shipments up a day or two so we can keep on schedule.

Thanks,

Brian Heinze

Subject: RE: Air Shipments - Azoxystrobin- POSITION

Dear Jack,

Please note the details on the shipment :-

First 5,000 kg scheduled to depart June 26 – destination Memphis airport, where Willowood USA will pick it up and deliver it to final destination. Please send all shipment documents as soon as possible. I am arranging clearance of the shipment, and will need the shipment documents to do this.

As of now this shipment is as scheduled, will be shipped in the name of NUAGCO as consignee

Next 10,000 kg. - expected to ship on or about June 30. Is the routing the same?

Goods will reach our warehouse in another 2 days time and presently scheduled to ship on 30th June in the name of WILLOWOOD AZOXYSTROBIN LLC as consignee.

Last 15,000 kg. What is estimated ship date, and what is the routing?

Today Mr.Ssj will check and confirm the delivery and shipment details on this balance 15MT Concern. Air shipment capacity is very tight for the next week or two. How confident are you that you will be able to get all of the product shipped on schedule?

As per the present position space is no problem, let us hope all will be smooth

With best regards

Sathish
